The Financier this week says The official statement of the New York associated banks last week; reflected, as was estimated in the traceable movements of money during the week, an important loss of cash, chiefy as the creuit of the exports of gold to Paris. Discrepancies between the estimated and the actual movements of cash in previous weeks were however not corrected. Though the loss through gold exports to Europe in the last bank week were \$12.000,000 including a shipment of \$1,000,000 on the previous Saturday, the averages of three shipments made a total of seven and one-third millions, counting the average for one day of two millions gold which was exported to Cuba on Saturday; therefore the statement was made on declining averages for cash.

"It may be noted that the decrease in cash shown by the bank statement more than off-set the gain to the banks through the interior movement and the payment of the banks to the treasury of \$1,337.600 on account of a Central Facific note, offset what otherwise would have been a gain to these institutions on the sub-treanury operations; therefore, the extraordinary disbussments by the banks on account of gold exports and for the Central Facific note were responsible for the week's loss of cash.

James A. Pollock & Co. issue the following eview of the stock market the past week The New York stock market opened strong on The New York stock market opened strong on Monday of this week, but showed great nervousness and an inclination to work lower until the decision of the United States Supreme court was handed down, granting the Harriman petition for a review of the Northern Securities case. Operators did not approve of the tenor of the decision and the market seld off sharply in consequence, but supporting orders promptly appeared, which checked the decilie and turned the market supporting orders promptly appeared, which checked the decilie and turned the market upward, and the advance, with the exception of slight recessions, was practically maintained the entire week. to keep long of, particularly it the steels move up.

A poor bank stalement was expected today, but it proved meire disappointing than was anticipated by the street, and the strong support that was given the market early in the day was withdrawn, and, under free liquidation and blar hammering, it broke sharply and closed rather weak. We think the decline may extend further early next week, and, in that event, favor purchases of the better issues.

and, in that event better issues.

The public is not participating in the market to any extent and local circles rather depoter this defendination to take advantage of opportunities offered. Some big deals are being worked out, which, when completed will be core much higher prices than are shown

today.

There is a time to sell stocks and a time to buy them, but this is the time to hold to the long side and purchases should be made on all sharp breaks.

CHICAGO, Feb. 4 -- Interest in the wheat pit centered on the July delivery. Throughout the ntire day there was urgent demand from entire day there was urgent demand from shorts. The price of the distant deliveries advanced with the sension. Under the influence of higher cables and buillish advices from Argentina the market opened firm, with July up is to be at \$1.00\(\text{t}\) to \$1.00\(\text{t}\). Seemingly there was a large short interest in the July existent A report was current that the Wall street clique was lifting the distant menth in order to hotter unload a large line of May. While July went upward the May option for a time lagged behind, seiling off to \$1.50\(\text{t}\) to \$1.50\(\text{t}\) to the May delivery also started upward, and a good advance was made. A large decrease in pri-mary receipts parily accounted for the rise in May. Just before the close a fresh outburst of buying brought prices to the high-est point of the day. For Men. How and Why I Can Make the Offer.

Never before has another perso - made a free offer such as this. I do not distribute cheap samples broadcast, but am daily sending out dozens of my full power Dr. Sanden Electric Belts absolutely free of charge, and they are the same in every respect as though full cash prices were paid. The proposition is simple. If you are ailing, call at my office and take a Belt home with you. Or, if at a

Use same according to my advice until cured, then pay me many cases as low as \$4. Or if not cured, simply RETURN the Belt which will close the transaction.

Not One Penny in Advance nor on Deposit.

Not a cent unless you are made well. I make this offer to show men what faith I have in my own remedy, and I can afford to take the risk because not one in a thousand, when cured, will cheat me out of the small amount asked. It pays me and my patients. My business was more than doubled the past year. Each Belt embodies all of my exclusive inventions (latest patent Oct. 4, '04) and all patients receive the benefit of my 40 years' experience, a knowledge of infinite value, and which is mine alone to give. I am the originator of the Electric Belt treatment, and all followers are imitators. This I will prove by any guarantee you may ask. You wear my Belt all night. It sends a soothing current (which you feel) through the weakened parts, curing while you rest. Used for lost manhood, drains, nervousness, impotency, varicocele, lame back, rheumatism, lumbago, dull pain over kidneys, pains in all parts of the body, kidney, liver, bladder disorders, constipation and stomach troubles. Send for the Belt today, or if you wish more information, write me fully of your case, and receive my personal reply. I will also send my descriptive book sealed free of charge. I have thousands of recent testimonials from grateful patients. Would you care to read some of them?

Let me take charge of your case at once. I will put new life into you in two weeks' time. Don't you do the worrying. Put that on me. I will take all the risk. I have something to work for. Unless you are
